This memorandum transmits the ordinance to establish the 2012 tax rate and tax levy for the Anchorage School District (ASD). The ASD tax rate and tax levy are based on the amount of property taxes required to support the ASD operating budget in calendar year 2012. These reflect one half of the property taxes required for ASD's fiscal year 2011-2012 operating budget, and one half of the property taxes required for ASD's fiscal year 2012-2013 operating budget.

#### PROPOSED FINANCIAL PLAN

The Anchorage School Board has approved the Proposed Financial Plan for FY 2012-2013 in the amount of \$726,842,354. The total recommended budget by individual fund projected is as follows:

				Percent o	of Fundi	ng
i		FY 2012-2013		Local	_	-
	<u>Fund</u>	Financial Plan	<u>Taxes</u>	Other	State	<u>Federal</u>

It is requested that the Anchorage Assembly approve local property taxes in the amount of \$239,963,319 and the upper limit spending authorization of \$726,842,354 for FY 2012-2013.

#### THE BUDGETING PHILOSOPHY

The budget provides a financial blueprint for the Anchorage School District's educational goals. When developing the budget, the Anchorage School District has an obligation to its many stakeholders—the students, parents, employees, and community members—to consider each group's priorities and balance them with the district's stated mission of "educating all students for success in life." The FY 2012-2013 budget projections reflect the district's on-going efforts to achieve this balance and maximize performance and contain costs.

During the early stages of the FY 2012-2013 budget preparation, the school district sought discussions with the Anchorage Assembly to provide an indication of what the district could expect from the Assembly property tax contribution to the ASD. On Tuesday October 25, 2011, AR NO. 2011-296, a resolution of the Anchorage Assembly regarding the annual operating budget of the Anchorage School District for its fiscal year 2012-2013 was submitted. After a discussion by the Assembly which included clarifying amendments, AR NO. 2011-296, as amended, was approved; the Assembly anticipated approving up to \$239,963,319 in property tax revenue, an increase of one percent or \$2,375,874 for all funds in property tax revenue.

With direction and approval from the School Board, the administration developed the General Fund budget using a portion of the undesignated fund balance as a funding source while still maintaining an unallocated fund balance at the level recommended by industry standards. Separate from the unallocated fund balance, the district continues to restrict fund balance in accordance to the agreement with the municipality to maintain a strong bond rating and maintain all other obligations.

Over the last couple of months the administration presented the FY 2012-2013 Preliminary Financial Plan to the School Board and the public at First and Second Readings of the district's FY 2012-2013 Financial Plan. At the end of the Second Reading on February 9, 2012, the School Board approved the Proposed FY 2012-2013 Financial Plan of \$726,842,354 by unanimous vote.

Attached is Exhibit I, ASD Memorandum #181 (2011-2012) FY 2012-2013 Proposed Financial Plan approved by the School Board as of February 9, 2012. The memorandum details all revenue and expenditure categories and the assumptions taken in preparing the FY 2012-2013 Financial Plan. Exhibit I and the attachments primarily focus on the General Fund as this is the main fund supporting the educational needs of our students.

#### FISCAL POLICIES

1

The Anchorage School Board's first strategic initiative is to develop a district long-range fiscal plan. This long-range fiscal plan will identify future financial risks, probability of those risks and mitigation measures to reduce the risk. The processes of creating a long-range plan, regardless of revenue, are the following:

7 8

9

10

- 1. Identify the key fiscal policies and best practices
- 2. Determine the salient cost drivers to the budget
- 3. For each cost driver, determine the range and probability of future costs
- 4. In order of probability and impact, determine the methods to mitigate risk

Exhibit II, Creating A High Performing District Through Execution of Sound Fiscal Policy and Best Practices, outlines the district's key fiscal policies and best practices. These fiscal policies reflect the building blocks of the financial health of ASD. Together ASD's fiscal policies and best practices ensure sound financial management, public transparency and accountability and long-range vision of stewardship. ASD's fiscal policies and best practices are also the foundational elements in which the district builds its budget assumptions and annual budget. Exhibit II outlines ASD's key fiscal policies and best practices.

#### SUMMARY

The FY 2012-2013 Proposed Financial Plan is consistent with the Anchorage School Board's continuing commitment to providing the best possible educational program for <u>all</u> students using available resources. The Anchorage School District requests the full support of the Anchorage Assembly for this budget. Our community's students deserve an excellent education which can only be achieved by consistently meeting their needs and setting high standards. The district's programs require continued improvement and our workforce needs the stability of attracting and retaining the best quality employees we can recruit. The district understands student success is the community's highest priority, and has incorporated citizen and agency concerns in this budget by directing funds to those programs that directly and effectively enhance student achievement. We are grateful for the community and staff support that contributed to the development of this budget and look forward to approval by the Anchorage Assembly.

#### **RECOMMENDATION:**

It is the Administration's recommendation that the School Board approve and authorize the Superintendent to prepare the Anchorage School District's FY 2012-2013 Proposed Financial Plan as set forth in the projected revenue and expenditure schedules accompanying this memorandum. The total recommended budget by individual fund projected is as follows:

The total of local tax contribution to be requested is \$239,963,319.

#### **PERTINENT FACTS:**

#### First Reading of FY 2012-2013 Proposed Financial Plan (2/1/2012)

The School Board considered the FY 2012-2013 Proposed Financial Plan at a special meeting on February 1, 2012. After a considerable amount of public testimony pertaining to budget reductions and the ongoing discussion pertaining to economic uncertainties still facing the district, the School Board decided to wait until the second reading before making any adjustments. Therefore, the total revenues and expenditures remain unchanged in the General, Food Service, Debt Service and Grant Funds. The Financial Plan for FY 2012-2013 at this time totals \$726,842,354.

Currently legislative bills are being introduced and heard with the Alaska Legislature that if passed and approved by the Governor, would have an impact on the District's proposed financial plan for FY 2012-2013. As updated information becomes available, the administration will re-address the FY 2012-2013 Financial Plan this spring as necessary.

#### **OVERVIEW**

The total budget for all funds is reduced \$6.2 million from last year. Inclusive in that reduction are program cuts and eliminations in the General Fund in order to balance expenditures to anticipated revenues. The Grants Fund adjusts services regularly based on available funds. All other funds balance without program cuts.

Anticipated inflation and contractual obligations increase the cost of maintaining services currently provided each year. The FY 2012-2013 budget is no exception. With only modest revenues increases expected, service cuts are required in the General Fund to balance expenditures to revenues. Efficiencies are sought regularly through the District and many have been identified this year in order to minimize budget cuts to instructional programs.

Reductions, program eliminations and efficiencies identified in the General Fund amount to \$22.5 million. The fund has also been reduced \$1.8 million anticipating a drop in enrollment for next year. Therefore, total service reductions amount to \$24.3 million. These adjustments are listed in this memo on Attachment B.

This memo only summarizes but does not re-address the pro forma revenue/expenditure assumptions unless there has been a significant change, either in dollar amount or activity. The changes addressed in this memorandum occurred subsequent to the October 24, 2011 Pro Forma memorandum which provides the detailed information and can be found on the District Budget website as well as linked from the October 24 School Board meeting agenda.

#### SUMMARY OF PRIOR ASSUMPTIONS

The major assumptions in preparing the FY 2012-2013 budget are based on, but not limited to, the following criteria:

- Balanced budget for presentation to the Anchorage Assembly—expenditures equal revenues
- Local property taxes—AR NO. 2011-296 approved appropriation of 1 percent increase in local property taxes
- Alaska Public School Funding Program—no change in the base student allocation of \$5,680; 20 percent special needs funding factor; 13 times intensive needs, and 1 percent CTE funding
- Quality Schools Grant—\$16 per pupil
- Use of fund balance as a revenue source—use \$7 million of unassigned fund balance to reduce the fiscal gap
- Potential adoption or expansion of programs must be funded within existing resources

There are still uncertainties that face the district pertaining to the FY 2012-2013 Financial Plan.

- School Board goals and projects, and other areas of interest
- Legislative action
- Anchorage Assembly action on ASD financial plan
- General Fund contract negotiations for bus drivers and attendants, and exempt employees
- Rate increase/decrease notifications from outside agencies and oil prices
- Federal Impact Aid subject to annual appropriation

#### SIGNIFICANT CHANGES

#### **State Retirement System Liability Funds:**

Effective with this budget, the district will change the policy regarding State Retirement System Liability Funds and no longer include those funds as a budgeted item. This is different from the upper limit request in November to include a fifth fund; there will be no fifth fund and no retirement system liability funds within the approval of the upper limit. Prior year budgets within the FY 2012-2013 budget documents have also been adjusted to exclude these funds for an accurate comparison.

The purpose for this change in fiscal policy is for the same reasons the Municipality identified a few years ago when it began excluding the funds from Municipal budget documents. The liability funding payments are not cash transactions, have no impact or

cost to local taxpayers and are appropriations of the State, not the District or Municipality. Additionally, these funds vary wildly on a year to year basis which makes effective budgeting difficult.

Since the District and Municipality have historically handled these funds differently, this change should reduce confusion. The District budget will not be inflated with the state's contribution to the retirement system liability, instead it will better reflect the true day to day operating costs of the district.

The Administration recognizes and remains grateful for the State's commitment to fund the retirement system liability. Similarly to the Municipality, this non-budgeted item will be appropriately recorded in all financial statements of the District.

#### **UPDATE BY FUND**

**Food Service**—The Food Service Fund remained the same at \$18,116,350 as projected in the pro forma scenario.

**Debt Service**—After further review, the state reimbursement amount was adjusted changing the total from \$86,157,856 to \$86,085,944. This resulted from a lower anticipated bond sale from \$12.0 million to \$11.1 million using authorized unissued bonds; the projections do not include debt service on any possible future bond propositions that may be approved by the voters in future years.

**Grants**— The Grants Fund remained the same at \$53,500,000 as projected in the pro forma scenario.

**General Fund** – The General Fund has significant adjustments since the October 24, 2011 Pro Forma memorandum. They are described below:

#### Revenue:

**Alaska Public School Funding Program**— This funding program has a net decrease of \$16,643. The net change results from additional property tax revenue, elimination of summer school revenues, fewer students projected for the transfer of the Spring Creek Correctional facility, and an increased enrollment projection for Frontier Charter School.

**Local property taxes**—The local property tax revenue for FY 2012-2013 assumes the Anchorage Assembly's October 25, 2011 approval of AR NO. 2011-296 that increases the District's share of property taxes by 1 percent for a total of \$239,963,319. Of this approved property tax funding, \$199,901,539 is designated for the General Fund and \$40,061,780 is designated for the Debt Service Fund.

**Summer school fees**— Due to the recommendation to eliminate the expenditures for summer school at all levels, \$286,000 of summer school revenue was eliminated.

**E-rate**—Due to further review of eligible e-rate expenditures, the e-rate revenue was increased by \$50,000.

Fund balance— Use of \$7 million in fund balance as a revenue source in the budget remains consistent. However an anticipated increase in restricted fund balance for the municipal bond rating will adjust the previous remaining percentages of unallocated fund balance from 3.7 percent to closer to 3 percent. This reallocation would not reduce the overall amount and therefore the administration believes the use of \$7 million of fund balance in this budget remains appropriate.

#### **Expenditures:**

The following expenditure budgetary adjustments have been made after months of staff discussions on the Value-Based Budget process, research and analysis, and then compiling the data. The change in the General Fund budget includes approximately \$26.1 million of increases and \$24.3 million in reductions, resulting in a net increase of \$1.8 million.

#### **Budgetary expenditure increases:**

Contractual increases	\$15.1 million
Education Jobs Bill positions	7.6 million
Response to Instruction	1.2 million
Equipment Replacement Fund	1.0 million
Additional services	1.2 million

The following positions have been added:

In the Classroom

- Education Jobs Bill (82 FTE)
- Special service teacher for the ACE program (1 FTE)

Direct Classroom Support

• Stem Coordinator (1 FTE)

#### **Budgetary expenditure decreases:**

In order to provide a balanced budget, approximately \$24.3 million in service cuts have been proposed in this budget.

\*See Attachment B

Program eliminations include:

Summer school – elementary, middle and high school	(\$2.8 million)
Graduation coaches	(.6 million)*
Career guides	(1 million)
Middle level ISS teachers	(.6 million)*

Student Support Program Supervisors Romig master plan facilitator	(.2 million) (.1 million)
Programs reduced through ratio or service level adjustment include:	
Elementary counselors	(.6 million)
Elementary librarians and assistants	(.4 million)*
Special Education/Related Services	(2.8 million)*
ELL services	(.3 million)
Gifted Education services	(.3 million)*
Curriculum & Instructional Support	(.8 million)
Maintenance positions and project funds	(.8 million)*
Purchasing/Warehouse positions	(.4 million)
Custodial positions	(.1 million)
Other significant budget adjustments include:	
Projected enrollment decrease	(\$1.8 million)
Increase attrition factor based on recent year actual costs	(1.2 million)
One-time cut of bandwidth costs	(.2 million)
One-time cut of utilities based on recent year actual and projected costs	(.4 million)
One-time cut of IT equipment refresh	(2.3 million)
Class-size adjustment – 48.5 FTE (grades 3-12)	(4.6 million)*

\*See Attachment B

A comprehensive list of all the reductions are listed on Attachment B. All together, the budget includes a net reduction of approximately 87 full-time equivalent positions.

#### Class size increase detail:

A discussion regarding the avoidance of increased class size occurred during the October 24th pro forma deliberation where the Administration and School Board all concurred that class size is important to maintain. Unfortunately with the significant program cuts above, a reduction was still required. To meet the required dollar reduction, increasing class size was determined necessary. The following chart indicates the adjustment made for FY 2012-2013.

Grade	Current PTR	Change
Kindergarten (FTE)	20.50 to 1	
Grade 1	21.00 to 1	
Grade 2	24.25 to 1	
Grade 3	24.25 to 1	24.75 to 1
Grades 4-6	27.25 to 1	28.25 to 1
Grades 7-8	26.25 to 1	27.25 to 1
Grades 9-12	27.91 to 1	29.41 to 1
Special Education	•	upon demonstrated need however several duced for FY 2012-2013

#### WHAT IF ASD RECEIVES ADDITIONAL FUNDING

The above recommended positions and program eliminations were difficult decisions to make; these are important programs and positions. If available funding increases are approved by the State Legislature and Governor, the Administration would recommend adding back the following programs. These are in no particular order.

- Class size grades 3 12
- Elementary counselors and librarians
- Middle level ISS teachers
- High school summer school
- Certificated staff that provide direct services to students with disabilities
- Maintenance staff

(A) Federal Impact Aid revenue is received for students living on military land and for other federally-connected students and reflect trend data of revenue receipts.

(B) It is estimated that participation in this program costs more in lost opportunity than it nets in reimbursement. Therefore, Medicare revenue was eliminated and the district is no longer participating in the program.

(C) Revenues for FY 2012-2013 reflect trend data of revenue receipts.
