Overview of Major Revenue Sources

The following describes the major revenue sources that make up over 75% of the \$421,392,278 of revenue that supports the 2013 Proposed General Government Operating Budget:

Property Taxes

Real Property Taxes (Account 9001)

2013 Proposed Budget is \$225,494,893 53.51% of Total Revenues

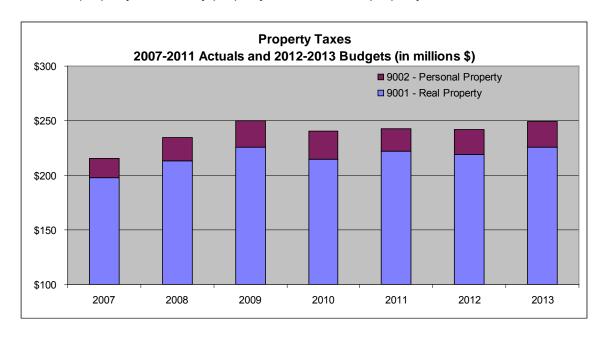

Personal Property Taxes (Account 9002)

2013 Proposed Budget is \$23,683,884 5.62% of Total Revenues

Property taxes are used to fund services that are not covered by other funding sources. The maximum amount of property taxes that can be collected is established by the Tax Limit Calculation for areawide services and by Service Area Boards or code for limited and rural service areas. Property taxes are ad valorem, which means they are based on the value of the taxable property. Taxpayers pay a flat rate per dollar value of taxable property tax that they own.

Real property means land, all buildings, structures, improvements and fixtures.

Personal property means any property other than real property.

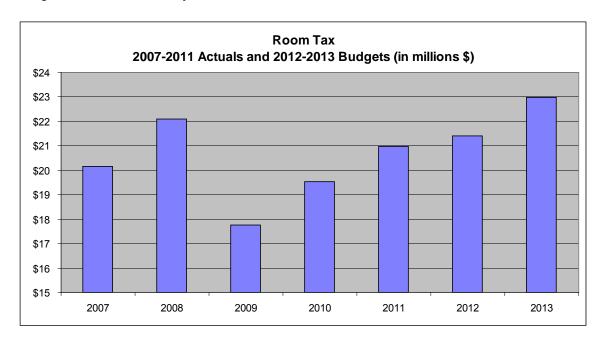

Room Tax (Account 9023)

2013 Proposed Budget is \$22,967,366 5.45% of Total Revenues

Room tax revenue is generated from 12% tax on room rentals of less than 30 days. Tax proceeds are split three ways: 4% is used to pay the debt service for the Dena'ina Center; 4% is used to promote tourism; and 4% goes to general government.

Room taxes are projected to be about 3% higher than projected year-end 2012 revenues, in line with the Institute of Social and Economic Research (ISER) employment forecasts that provide a general indicator that the Alaska tourism industry will grow between 1% and 3%. The 2013 projection includes consideration of cruise ship passengers based on data from Anchorage Economic Development Corporation (AEDC) and the Department of Commerce, Community, and Economic Development Alaska Visitor Statistics program.

Trending shows effect of 2008 weakened global economy on 2009 actuals. Hotel / motel tax revenues for the first half of FY 2012 were 6.1% higher than the same period last year. This was higher than the 2% growth rate assumed when setting the budget. 2012 projected year-end actuals are anticipated to be 6% higher than 2011 budget. The increase may be attributable to increases in room rates.

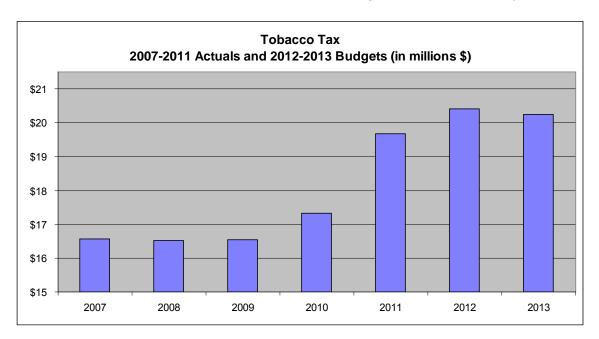

Tobacco Tax (Account 9011)

2013 Proposed Budget is \$20,248,698 4.81% of Total Revenues

In accordance with AMC 12.40, cigarette tax rate will increase to 115.3 mills in 2013. This is a 1.9% increase over the 113.2 mill rate in 2012. Tobacco taxes are also levied as 55% of wholesale price of other tobacco products brought into the Municipality. The tax rate is indexed to the consumer price index, so it increases each year to reflect inflation. Tobacco taxes are subject to the Tax Limit Calculation. Proceeds are used to fund areawide general services.

Tobacco tax revenues in 2013 are projected to decline slightly from 2012 to reflect the continued long-term trend decline in the total number of taxable cigarettes imported into the Municipality.

Trending shows sharp increase from 2010 actuals to 2011 budget due to a local code change in the levy from 65 mills to 110.3 mills on cigarettes and from 45% to 55% of wholesale price of other tobacco products brought into the Municipality.

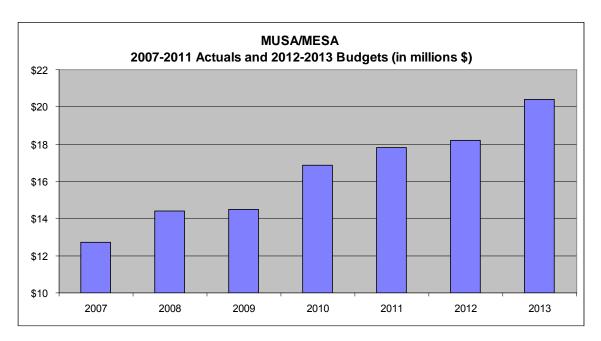

MUSA/MESA-Contributed/Non-Contributed Plant (Account 9851)

2013 Proposed Budget is \$20,384,984 4.84% of Total Revenues

In accordance with AMC 26.10.025, Anchorage Water and Wastewater Utility (AWWU), Municipal Light and Power (MLP) and Solid Waste Services (SWS) are required to pay municipal utility service assessments (MUSA) and Merrill Field (AMC 11.60.205), Port of Anchorage (AMC 11.50.280) and Anchorage Community Development Authority (ACDA) (AMC 25.35.125) are required to pay municipal enterprise service assessments (MESA) as a payment-in-lieu-of taxes to help cover the cost of tax-supported services they receive (other than those services received on a contract or interfund basis). Revenue from MUSA/MESA payments are included in Tax Limit Calculation and are used to fund areawide general services.

MUSA/MESA is calculated by applying the respective service area millage rate to the determined value of the entity's net plant (AWWU, MLP, SWS); adjusted plant (Merrill Field, Port); and net book value (ACDA). The inclusion of the Southcentral Power Plant to MLP's asset base accounts for a projected MUSA increase of \$1.5M in 2013.

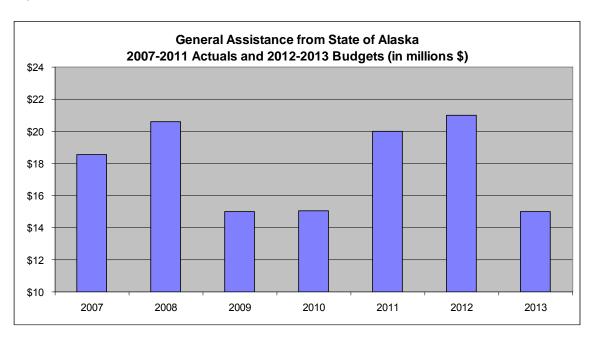

General Assistance from State of Alaska (Account 9342)

2013 Proposed Budget is \$15,000,000 3.56% of Total Revenues

Revenue received from the State of Alaska (SOA), as part of the Community Revenue Sharing Program. MOA must meet minimum qualifications and apply for the funding. The revenue is used to fund areawide general services.

The 2013 amount is based on historical trend. The amount of annual funding for the Community Revenue Sharing Program is subject to annual legislative appropriation. It could decline substantially in future years if the Legislature does not appropriate additional monies into the Community Revenue Sharing fund but the program is fully funded for next year and, given the State's current surplus revenue due to high oil prices, this probability of decline is highly unlikely in the near-term.

Trending shows revenue receipt consistently around \$15 million since 2009, with the exceptions of years when the SOA appropriated additional funding into the Community Revenue Sharing Program, resulting in increased proportionate payments to MOA.
