### Debt Service

Debt service is the cost of repayment of debt, including principal, interest, agent fees, and cost of issuance.

The debt service included in the General Government Operating Budget typically represents debt incurred in the following ways:

***Voter Approval Required:***

- General Obligation (GO) Bonds

***Assembly Approval Required:***

- Revenue Bonds
- Short Term Borrowing Programs (STBP)
- Intermediate Term Borrowing Programs (ITBP)
- Lease/Purchase Agreements
- Tax Anticipation Notes (TANs)

#### **GO Bonds**

A GO Bond is a municipal bond backed by the full faith, credit, and taxing power of the Municipality. GO bonds appear as a proposition on a general election ballot for covering the cost of capital expenditures. They require authorization by the Assembly and approval by a majority of Anchorage voters as well as a majority of voters in the respective service area. The debt is repaid by property tax payers in the respective service areas.

The Municipality generally issues 20 year bonds. However, the debt is structured to make sure that there is sufficient principal being paid off to cover the shorter useful life assets in the bond package.

The amount of GO bond debt that the Municipality can incur is limited only by GO bond amounts approved by voters. GO bond debt service is included in the Tax Cap Calculation for the 5 Major Funds - the mill rate for these funds is increased to accommodate the GO bond debt service. The mill rates for GO bond debt service in other service areas does not increase unless the mill rate increase is approved by voters (language for such mill rate increases are typically included in bond propositions).

The Municipality's GO Bond Ratings and Outlook are as follows:

Standard & Poor's	AA-	Outlook: Stable
Fitch Ratings	AA	Outlook: Stable

#### **Revenue Bonds**

A Revenue Bond is a bond supported solely by the revenues generated from a specific project or enterprise. Revenue Bonds are not supported by the full taxing power of the Municipality. A good example of a revenue bond is the Alaska Center for the Performing Arts (ACPA); ticket surcharges pay for ACPA's debt service on the bonds issued to finance replacement of the roof in 2004.

#### **Short Term Borrowing Programs (STBP)**

Short Term Borrowing Programs are similar to a bank loan or credit line, used to offer interim financing under flexible terms until they are paid off, or refunded, generally with Revenue Bonds. These programs usually have a variable rate of interest.

#### **Intermediate Term Borrowing Programs (ITBP)**

Intermediate Term Borrowing Programs are similar to revenue bonds. They are used when we want to amortize principal faster, since they usually have a maturity in the five to ten year range. These programs may have an interest rate that is a fixed rate or a variable rate.

### **Debt Service**

---

#### **Lease/Purchase Agreements**

Agreements between the Municipality and Bank of America and Key Government Finance, Inc. that provide market rate loans to the Municipality for the purchase and eventual ownership of specific assets. The Agreements are entered into on an as-needed basis and the loans are typically repaid over the useful life of the asset.

#### **Tax Anticipation Notes (TANs)**

Tax Anticipation Notes are short term notes issued by the Municipality for the purpose of raising funds to pay ongoing operating expenses. They are issued in anticipation of receiving property taxes and other revenues scheduled to be collected during the year. TANs are retired prior to the current year end. The debt service related to TANs is not limited.

#### **Interfund Loans**

Borrowing from one municipal fund to another with terms approved by the Assembly.

#### **Operating Leases**

Certain operating leases of nonfinancial assets. Examples include buildings, land, vehicles, and equipment. Categorized in non-labor prior to 2022, and changed to debt category per Governmental Accounting Standards Board (GASB) Statement Number 87.
