⁵ For general government, compensated absences are based on modified accrual so that the leave cashout percentage represents the amount of leave expected to be cashed out during the budget year, as a percentage of salary. Utilities, enterprises, and internal service funds determine compensated absences by full accrual method so that the calculated leave cashout is performed external to the percentages used on this schedule. Except for the Mayor position, as approved on February 12, 2015 by the Commission on Salaries and Emoluments of Elected Officials, will not acquire and accumulate annual leave commencing on July 1, 2015.
