

SOLID WASTE SERVICES UTILITY PROFILE

<u>ORGANIZATION:</u> Solid Waste Services (SWS) is composed of two separate utilities. The Refuse Collections Utility provides refuse collection service to residential and commercial customers in the City of Anchorage Service Area. The Solid Waste Disposal Utility operates multiple transfer stations and a regional landfill providing affordable and environmentally responsible services for the entire Municipality. SWS is divided into four organizations. The organizations include Refuse Collections, Solid Waste Disposal, Vehicle Maintenance and Administration. Vehicle Maintenance and Administration are support organizations that fully charge to Refuse Collections and Disposal Utilities.

The profile for both Refuse Collections and Solid Waste Disposal is shown separately below:

REFUSE COLLECTIONS UTILITY

HISTORY: Refuse Collections Utility was originally owned by the former City of Anchorage. When the City and Borough merged in 1975 the Municipality of Anchorage became the new owner. Since at least 1952 there has been mandatory service for all residents who live in the Refuse Collections Utility service area.

SERVICE: Refuse Collections Utility provides service to the former City of Anchorage, which is approximately 20% of the population of the Municipality of Anchorage. The Refuse Collections Utility has three main types of collection vehicles: frontload, rearload, and sideload. The frontload vehicles are used to empty dumpsters and normally handle commercial or multifamily residential. Rearload vehicles service mainly can/bag residential and a few two-yard(small) dumpsters. Sideload vehicles service residential can/bag only. Refuse Collections Utility services approximately 4,650 dumpsters, and 12,178 can/bag pickups per week. Refuse Collections operates six dumpster routes per day M-F and two routes on Saturday, six sideload routes per day M-F, one rearload route per day M-F, and one-half rearload route on Saturday.

REGULATION: Refuse Collections Utility is regulated by the Regulatory Commission of Alaska as having the right to collect solid waste, but is not economically regulated.

Refuse Collections Utility as a part of Solid Waste Services also has a seven member advisory commission. The members are appointed by the mayor and confirmed by the assembly. The commission normally meets monthly and when necessary holds special meetings. The advisory commission advises and makes recommendations to the administration and assembly on matters pertaining to the operating budget, capital budget, rules, regulations, and administrative guidelines for the Refuse Collections Utility.

<u>ENVIRONMENTAL MANDATES:</u> Although there are no specific state or federally mandated regulations for Refuse Collections there are a number of federal and state mandated regulations that the Refuse Collections Utility must comply with. These regulations include but are not limited to the Federal Clean Air Act, The Clean Water Act and OSHA. These regulations have and will continue to have an economic and operational impact on Refuse Collections Utility.

PHYSICAL PLANT:

Specialized truck fleet

- 7 frontload trucks for dumpster collection
- 2 rearload trucks for curbside pickup and small dumpsters
- 8 sideload trucks for curbside pickup only

Refuse Collections warm storage building, a 27,000 square foot building that contains vehicle maintenance, storage space and administrative offices.

SOLID WASTE DISPOSAL

<u>HISTORY:</u> The Municipal landfill at Merrill Field was closed during 1987 following approximately 50 years of usage. This brings the total of closed, official landfill sites within the Municipality of Anchorage to five. The Anchorage Regional Landfill (ARL), an award winning "state-of-the-art" fully lined modern landfill, was built in 1987 and is the only operating landfill in MOA.

SERVICE: The Solid Waste Disposal Utility serves the entire MOA. The services include the disposal of solid waste and collection of household hazardous waste. Normal solid waste is received at any of the four transfer stations located within MOA. The waste is then transported by the Utility to ARL for final disposal.

The ARL has a total land area of approximately 275 acres and is being developed in phases called cells. Currently 6 out of a total of 12 base cells have been constructed. ARL is projected to have a total capacity in excess of 42.3 million cubic yards. It is estimated that ARL will reach full capacity in the year 2037. In 2002, 370,257 tons were deposited in ARL which was 30.707 tons more than in 2001.

Solid Waste Disposal Utility also operates four transfer stations. They are located at Girdwood, midtown Anchorage (Central Transfer Station-CTS), next to Fort Richardson, and ARL. They allow Solid Waste Disposal Utility to restrict access to the face of the landfill. CTS, by far, receives the largest amount of solid waste, having received over 266,117 tons in 2002. CTS has a total capacity of 1,600 tons per day. The 2002 quantity was 7.6% greater than that in budget year 2001. The Solid Waste Disposal Utility operates a fleet of 20 tractor and trailer units that transport the solid waste from the transfer stations to the landfill. The trailers have a capacity of 120 yards each.

Household hazardous waste can be dropped off at CTS or the Hazardous Waste Facility located at ARL. The hazardous waste is then handled by a contractor who puts the hazardous waste in proper containers and safely ships the containers out of state to federally approved hazardous waste disposal sites. In March 2000 a new program that allows citizens to take good, usable hazardous materials at no cost to them was successfully implemented. More than 11,585 items, totaling 3,971 gallons of waste were diverted from the landfill. In 2003, a program was added to recycle E-waste from commercial customers.

Solid Waste Disposal Utility operates a 6,000 square foot household hazardous waste collection facility built in 1989. The facility, located at ARL, is operated by a private contractor. In 1992, the facility was the only Hazardous Waste facility in North America to receive Solid Waste Association of North America's "System Excellence" award. Through 2002 the facility has collected a total of 13.73 million pounds of hazardous waste that otherwise may have been improperly disposed of in the landfill, storm drain system or people's backyards.

REGULATION: The Solid Waste Disposal Utility is not economically regulated by any non-municipal agencies. However, the Utility operates under numerous permits and many EPA regulations. ARL is operated under a permit issued by the Alaska Department of Environmental Conservation. This permit must be renewed every five years. The Disposal Utility operates under two permits from AWWU for industrial water discharge. ARL has permits from the US Department of Fish and Wildlife and the Alaska Department of Fish and Game for bird predation. ARL construction and certain operations must comply with the EPA Resource Conservation and Recovery Act (RCRA) subtitle D.

The Solid Waste Disposal Utility, as a part of Solid Waste Services, also has a seven member advisory commission. The members are appointed by the mayor and confirmed by the assembly. The commission normally meets monthly and when necessary holds special meetings. The advisory commission advises and makes recommendations to the administration and assembly on matters pertaining to the operating budget, capital budget, rules, regulations, and administrative guidelines for the Utility.

ENVIRONMENTAL MANDATES: The Solid Waste Disposal Utility must operate under and comply with numerous environmental mandates. These mandates have a significant economic impact on the cost of operations and construction for the Utility. The main environmental mandates that have a significant impact on the Disposal Utility are RCRA subtitle D, Clean Air Act, Clean Water Act, SARA Title 3 (Super Fund), NESAP (asbestos), and NPDES (storm water discharge). It is projected that in the future the environmental mandates regarding operating and constructing a landfill will become even more stringent.

PHYSICAL PLANT:

Anchorage Regional Landfill

275 acres, estimated to last through the year 2037

- 43 million cubic yard capacity
- Phased construction of cells lasting four to five years each
- Currently have constructed six of the twelve base cells
- Located on municipal land
- Scalehouse and 22,000 square foot shop and storage facility
- Heavy equipment fleet: dozers, loaders, dump trucks, boom truck, water truck, leachate trucks, tankers, lube trucks, grader and compactors
- Two leachate storage, treatment lagoons with a 2.9 million gallon capacity

Four transfer stations provide intermediate disposal, easy access for public

- Girdwood, Central, Ft. Richardson and ARL
- 20 transfer tractor and trailers haul from stations to landfill

Hazardous waste management

- 6000 sq. ft collection facility for household hazardous waste
- Opened in 1989, operated by private contractor
- Received the only "System Excellence Award" in North America from Solid Waste Association of North America

SOLID WASTE SERVICES 2004 OPERATING AND CAPITAL BUDGET ASSUMPTIONS

Below are general and specific budget assumptions/guidelines provided to Refuse Collections and Solid Waste Disposal for preparation of the 2004 Operating and Capital Budgets.

- Refuse Collections Utility will continue to hold the Alaska Regulatory Commission Certificate for waste collection in the City Service Area.
- Refuse Collections and Solid Waste Disposal Utilities will continue under Municipal ownership in 2004.
- Rate increase for Refuse Collections is approximately 10.7% for the residential collections and 27.9% for the commercial collections in 2004.
- The increased rate revenue is determined to be the most prudent funding source for maintaining the utility's plant in a cost-effective working condition.
- The mill rates for MUSA (in lieu of taxes) will be the same as 2003 mill rates. The 1.25% MUSA applies to the Solid Waste Disposal Utility.
- New debt service interest on revenue bonds assumed to be 5.5%. Interest income calculated assuming a rate of 1.45%.
- The IGC's from General Government are based on the 2003 Revised Operating Budget dated 4/24/2003.
- Anchorage's population will be approximately 269,070 in 2003 and 273,779 in 2004.
- In general, inflation (i.e., CPI all urban consumers) is anticipated to be approximately 2.0% in 2004.
- Solid Waste Services used no account specific inflation multipliers. For future years (2004-2005), Solid Waste Services assumed inflation to be 2.0% per year.
- The cost of living, Consumer Price Index, or similar-purpose adjustments that may have been scheduled to occur 1/1/2004 is under one-year wage freeze. Teamster represented employees received \$150 per month employed beginning July 1, 2003 and will receive 3% increase effective July 1, 2004. It was assumed the Operating Engineers and Machinist employee's wages will increase similar to the Teamster agreement. Machinists received 4% in 2003, \$1,800 lump sum in 2004. AMEA Benefit costs are \$11,280 per year and \$10,030 for the former AJCC employees.

SOLID WASTE SERVICES Highlights and Future Events

REFUSE COLLECTIONS UTILITY

The Refuse Collections Utility historically has been a very stable utility with respect to its customer base, operating expense and revenues. For example operating expense was \$5,277,600 in 1990 and \$5,706,583 in 2002. Total Revenues ranged between \$5,395,138 and \$5,815,480 for the same time period. Pro-forma 2003, however, present a slightly different picture. The Pro-forma 2003 expenses increase to \$8,401,980. The increases occur due to Revenue Distribution of \$2.5 million dollars to General Fund. At the same time non-operating revenues are on the decline. Total revenues for 2003 are projected to be \$5,514,340 in 2003 and \$6,718,820 in 2004. The \$1.2 million revenue increase includes an anticipated rate increase in 2004. Interest earnings have decreased over 50% in the last year. The 1.25% Gross Receipt Tax may be imposed. There is a need in the near future for a rate increase. The last rate change occurred in 1990.

In 2003 and 2004, the utility will continue to make available to commercial customers, the use of larger sized dumpsters, a program initiated in mid-2000.

The variable (volume based) rate analysis for the residential customers as recommended in the <u>Waste Reduction and Recycling Management Plan</u> will be continued on into 2004.

The Refuse Collections Utility capital budget will increase for purchase of vehicles and equipment, which is necessary for continued efficient operation.

SOLID WASTE DISPOSAL UTILITY

In 2002, the Solid Waste Disposal Utility processed 370,257 tons of waste. This was a 30,707 ton increase from 2001. The increase is primarily attributable to waste originating from cleanup activities at the Girdwood School Site, for which the utility received no revenue. Solid Waste Services believes the total annual waste quantity will remain at/or around 345,000 tons for a number of years.

Overall the Solid Waste Disposal Utility's 2004 operating budgeted expense is projected to increase by \$1,225,780 from the 2003 budget. The 2004 budget includes expenses associated with facility maintenance and repair of Central Transfer Station (CTS) and Anchorage Regional Landfill (ARL). Revenues for the Utility will remain fairly uniform in spite of a reduction in interest earnings since 2001. This is because operating revenues are increasing.

Included in the 2004 operating budget is \$450,000 for repaving the tipping floor at the Central Transfer Station.

Funding for the recycle grants program and increased materials recovery at the Anchorage Regional Landfill and Central Transfer Station is again included in the 2004 Operating budget.

The Solid Waste Disposal Capital budget for 2004 includes funding for replacement vehicles and equipment, which continues throughout the five projection years. The 2004 Capital budget also includes funds necessary for designing the Landfill Sequencing Plan with construction anticipated to begin in 2004. It is anticipated that an active gas extraction system will be required by regulation in 2005. Funds for the Gas System have been budgeted in the 2004 and 2005 period. Beginning in 2004, the utility will design the next cell (#7) for Anchorage Regional Landfill and complete construction in 2005. The funding source for these projects includes funding from operations and issuance of the Alaska Clean Water Loan funds, which have a low interest rate compared to other funding sources.

Budget Impacts

SOLID WASTE SERVICES – REFUSE COLLECTIONS

Overall the Refuse Collections 2004 operating budget is projected to increase \$476,850 or 8.1% compared to the 2003 revised budget. Total revenues have increased \$720,540 due to the proposed rate increase. No single account changes significantly.

SOLID WASTE SERVICES – DISPOSAL UTILITY

Overall the Solid Waste Disposal 2004 operating budget is projected to increase \$1.1 million compared to the 2003 revised budget. This is due to the repair and maintenance of the Central Transfer Station and Landfill facilities. The Utilities total revenues are remaining fairly stable even though interest earnings are down significantly.
