Health Savings Account (HSA)

Save for Health Care Expenses

When you enroll in the QHDHP medical plan, you could lower your taxable income while setting aside pre-tax funds for health care expenses in an HSA, administered by Optum Financial.

HSA Highlights

Triple Tax Savings	Contributions	Examples of Eligible Expenses*	Paying for Health Care Expenses	No "Use It or Lose It" Rule

Unused funds roll over each year You own the account and take contributions with you if you retire or leave MOA

*Refer to IRS Publication 502 for a complete list of eligible expenses.

How the HSA Works with the QHDHP Medical Plan

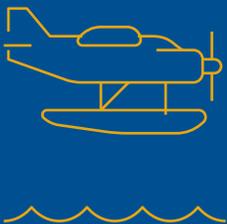

You pay 100% of health care costs until the annual deductible is met. You can use your HSA funds to pay for health care expenses.

After your deductible is met, **you pay 20%** and the plan pays 80% when using an in-network provider.

When you meet the out-of-pocket maximum, the **plan pays 100%** for eligible services for the rest of the year.

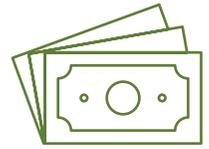

HSA Eligibility Requirements

- You must be enrolled in the MOA Qualified High Deductible Health Plan with an HSA.
- You or your covered spouse do **not** participate in a Health Care FSA.
- You are **not** enrolled in Medicare, TRICARE, VA Benefits, or Indian Health Services (IHS).
- You are **not** claimed as a dependent on someone else's tax return.

Flexible Spending Accounts (FSAs)

Save Smart & Lower Your Taxes

Flexible Spending Accounts (FSAs), administered by Optum Financial, offer a smart way to stretch your dollars by setting aside pre-tax dollars to pay for eligible health care and dependent care expenses. Each year, you must elect the annual amount you want to contribute to each account. Your contributions will be deducted pre-tax from your paycheck which helps reduce your taxable income. If you have a Health Savings Account (HSA), you cannot participate in the Health Care FSA.

	Health Care FSA	Dependent Care FSA
Annual Contribution Limit	\$2,850	\$5,000 (\$2,500 if married and filing separately)
Eligible Expenses*	Health care plan deductibles, copays, coinsurance, and prescriptions, including dental and vision hardware and expenses	Licensed daycare for children age 12 and under, disabled children, and dependent adults

401(k) & 457(b) Voluntary Retirement Savings Plans

Build Your Wealth Now

Saving for retirement is an important part of financial wellness. MOA sponsors 401(k) and 457(b) Deferred Compensation Plans, both administered by Empower Retirement. Contributions can be set up as pre-tax or Roth (post-tax).

Eligibility	Contributions
<p>You are eligible to participate after your first paycheck has been issued. You can enroll in the 401(k), 457(b), or both plans, choose your beneficiaries, and allocate your asset distribution at any time.</p> <p>Log in to MOAretire.com at any time to enroll, choose your beneficiaries, and adjust your asset distributions.</p>	<p>You may contribute up to the annual IRS maximum of \$20,500* with pre-tax or post-tax dollars from your paycheck. If you are age 50 or over, your IRS maximum is \$27,000.</p>

*Maximums are subject to change for 2023.

401(k) vs. 457(b) – What’s the Difference?

- 401(k) plans and 457(b) plans are both tax-advantaged retirement savings plans.
- 457(b) plans can only be offered to non-profit or government employees.
- The two plans are very similar. Some aspects, like early withdrawal and hardship distributions, are handled differently. For example, the 10% penalty for early withdrawal before age 59½ does not apply to 457(b) plans.

Helpful Benefit Terms & Definitions

To better understand your coverage, it's helpful to be familiar with benefits vocabulary. Take a moment to review these terms, which may be referenced throughout this guide.

Balance Bill – When an out-of-network health care provider bills a patient for the difference between what the patient's health insurance reimburses and what the provider charges.

Copay – A fixed dollar amount you pay the provider at the time of service; for example, a \$25 copay for an office visit or a \$7.50 copay for a generic prescription.

Coinsurance – The percentage paid for a covered service, shared by you and the plan. You are responsible for coinsurance until you reach your plan's out-of-pocket maximum. Coinsurance can vary by plan and provider network. Review the plans carefully to understand your responsibility.

Deductible – The amount you pay each calendar year before the plan begins paying benefits. Not all covered services are subject to the deductible. For example, the deductible does not apply to preventive care services.

Emergency Room Care – Care received at a hospital emergency room for life-threatening conditions.

In-Network Care – Care provided by contracted/preferred providers within the plan's network of providers. This enables participants to receive care at a reduced rate and save money compared to care received by out-of-network providers.

Out-of-Network Care – Care provided by a facility outside of the plan's network. Your out-of-pocket costs may be higher, and services may be subject to balance billing.

Out-of-Pocket Maximum – The maximum amount you pay per year before the plan begins paying for covered expenses at 100%. This limit helps protect you from unexpected catastrophic expenses.

Premium – The complete cost of your plans. You share this cost with the MOA and pay your portion through regular payroll deductions.

Preventive Care – Routine health care, including annual physicals and screenings, to prevent disease, illness, and other health complications. In-network preventive care is covered at 100%.
