BIKE TO WORK
MAY 20 th 2015

Types of Bikeways

Bike Lanes
- Provide a safe place to ride for the bicycle user
- Usually established on streets without traffic
- Designated in many communities as sidewalks

Marked Shared Lanes
- Can and should be used by the bike
- Can and should be used by the car
- Designated in some communities as bike lanes

Shared Lanes
- Can and should be used by the bike
- Can and should be used by the car
- Can be used by anyone

Multi-use Trail
- Preserves access to the trail for bicyclists, pedestrians, equestrians, and or non-motorized users

Bike Routes
- Can and should also be used by the car
- Can and should be used by the bicycle
- Designated in many communities as bike paths

Bike-to-Bus

All bicycle users can hold their bikes. Bike racks are available on a first come, first served basis.
- Always approach the bus rack from the back side.
- Slowly approach the bus and maintain a distance no longer than 4 feet from parked cars.
- Remember your own back is the last bike before the bus.
- If you don’t recommend the safety of your bicycle, lock your bicycle to the frame of the bus when you get on the bus.
- If you’re concerned about the safety of your bicycle, always approach the bike rack from the death side.
- Slow down when there are lots of users on the trail.
- Advise others when passing.

Rather than ride outside the bus, ride inside the bus.
- Make sure the bus operator is aware of your bicycle.
- Do not ride on any part of the bus.
- Follow safety rules on all buses.

Bike Shops (with corresponding map numbers)

Portland Bicycle Rental
(907) 440 L Street

Central Business

Riding predictably and following traffic laws makes you a safer bike rider.

NO RIDE AGAINST TRAFFIC

NEVER

ALWAYS

Watch for the Right Hook!

The Door Zone
Tips to Avoid Injuries

When opening car doors, always check for bikes and cars.

Watch behind you.

May have a low in the door. Always check for bikes and cars.

When opening car doors, watch for bike riders! If you can’t see outside of the door zone keep your door closed, check outside of the door zone, then open your door and be careful.

Bikes clip the road sign along the side of the road when opening door.

Ride with care and don’t let a door pinch your bike.
