

## 2017 fire at 4411 Edinburgh Drive

There was a fire in the kitchen that consumed the corner upper and lower cabinets and extended into the wall and ceiling structural framing. The fire also extended through plumbing penetrations in the floor to the garage below. Where the fire extended into the corner of the garage, there is damage to garage wall framing to include top plates and floor/ceiling joists. It was reported that fecal matter may have been present in the home. The current interior condition is unknown.
