Thank you Paul Crews for sending letter reminding about the GTP.

Old Business:

- 1. Girdwood Trails Plan

GTC discusses that GBOS has given a due date of Jan 31 for completion of the Girdwood Trails Plan. See GBOS report in meeting packet for review of this discussion.

Continue presentation and voting on GTC member suggested changes to GTP meeting, starting at Amendment 7.

Amendment 7: Proposed Motion: Amend the approved recommended change of Natural Spaces description on P 35, **Areas For Primitive Trails** by adding the following sentence: **Primitive Trails should be routed or rerouted onto sustainable alignments and hardened when necessary to assure trail sustainability.**

Group discusses that this action should not be necessary as the Trails Class system specifies that Class 1 or 2 trails are still maintained trails and allows for boardwalks, hardening, re-routing to protect the environment. This could also be considered more of a Trails Management Plan item. Crews is asked if he would like to pull his amendment in the light of this, however he states that the misunderstanding about maintenance of Class 1 and 2 trails persists and clarification the Trails Plan is necessary.

Motion:

GTC moves to accept Amendment #7: Adding the following sentence to Pg 35:

Primitive Trails should be routed or rerouted onto sustainable alignments and hardened when necessary to assure trail sustainability

Motion by Paul Crews/2nd by Brian Burnett

Total is 26 in favor, 16 opposed, 4 abstain

Motion carries

Girdwood Trails Committee Agendas and minutes are available on line: www.muni.org/gtc

Amendment #8:

Proposed Motion: Vote to remove all primitive trail areas from the maps.

Deb presents that she supports primitive trails and areas but they don't belong on the maps as the primitive area restricts use of mechanized vehicles and could limit access, particularly from the townsite to the mouth of the valley in Area 1. She is concerned that many small trails leads to braiding and degradation of the area, it would be better to plan for actual trail alignments rather than to set aside an area for less structured use.

Group discusses that Natural Spaces was renamed Primitive Areas at earlier meeting, expansion of Primitive Area 1 was discussed at an earlier meeting. However voting on their existence has not been considered yet by the GTC as a whole.

Members states that if primitive areas are removed, perhaps Mountain Bike Areas in the plan should also be removed.

Motion:

GTC moves to accept Amendment 8: Remove all Primitive Areas from the maps.

Motion by Deb Essex, 2nd by Brian Burnett

Total is 30 in favor, 18 opposed, 5 abstain

Motion carries
