GBOS is collecting comments to include in a Resolution regarding the Conditional use and platting action.

Motion:

GTC moves to recommend that GBOS request that upgrade and reroute of the trail through Holtan Hills proposed subdivision is paid for by the partners in the development project.

Motion 1:

GTC moves to recommend that GBOS request a plat note as a condition to the approval of the Planned Use Development to designate the following actions and to clarify that they are to be paid for by the development partners (HLB and/or CY Investments):

- * Platting of the Girdwood Middle Iditarod National Historic Trail and 50' easement through Phase 1
- * Realignment of the existing trail segment, in consultation with GTC
- * Trail improvements through Phase 1, in consultation with the GTC and in accordance with established practices in the Girdwood Trails Master Plan (2025) and Girdwood Trails Management Plan (2020).

Motion by PCrews/BBurnett

Amendment to motion by PCrews/B Burnett Amendment approved by unanimous vote

Amended motion approved by unanimous vote.

Girdwood Trails Committee Agendas and minutes are available on line: www.muni.org/gtc

Discussion: Purpose is to have GTC involved in the trail reroute and trail design through Holtan Hills. Upgrade of trail through the neighborhood necessitated by development should be paid for by the partnership that is responsible for the increased trail use. Platting of the area should be included in the plat. This will provide precedent for the same collaboration for future phases of the Holtan Hills development.

Motion 2:

GTC moves to recommend that GBOS request that the trail and its easement of 50' (25' on each side of trail center line) is surveyed and recorded on the plat, thereby protecting the trail and trail easement from development in perpetuity, including where the trail and private property overlap.

Motion by PCrews/2nd BBurnett

Motion approved by unanimous vote

Discussion: Purpose of this is to protect the trail and easement from clearing land within 25' of the centerline of the trail.
