

1 9. Pursuant to the *Issue #16* recommendations on page 18 of Attachment A, amend the  
2 draft Plan as follows:

3 a. Amend the open space goal on page 41 to read:

4 **Maintain, supplement and enhance open space**

5 As Downtown densifies and develops, it is critical that the hierarchy of parks and open  
6 space is maintained **and supplemented** to accommodate new residents and workers.

7 b. Amend the second bullet in the right column on page 66 to read:

- 8 • As Downtown becomes more densely developed, it is important to preserve, ~~and~~  
9 maintain **and supplement** its open spaces.

10 10. Pursuant to the *Issue #20* recommendations on pages 21 and 52 of Attachment A,  
11 make the following amendments to the draft Plan:

12 a. Amend the second bullet on page 121 of the Plan as follows:

- 13 • **Develop improvement plans based on a public process to improve** ~~Improve~~ Town  
14 Square, Delaney Park and the Weekend Market site to...[...]

15 b. Replace the language in LU-14 on page 127 of the Plan with the following:

16 **Complete a public process to create an improvement plan for Town Square Park.**

17 c. Add the following language as a new narrative sidebar on page 67 of the draft Plan.  
18 In order to provide space for the following language, shift the Downtown Open  
19 Space Diagram from page 67 to 66, and remove the City-wide Open Space Diagram  
20 from page 66 to the open space background discussion in Appendix A of the draft  
21 Plan.

22 **Town Square Park**

23 **The Downtown Plan strategy for Town Square Park builds on Town Square's current role**  
24 **and function as a community gathering area with programmed events on weekends and**  
25 **holidays and more informal community use during the week. This strategy is consistent with**  
26 **the 2006 Anchorage Bowl Park, Natural Resource and Recreational Facility Plan, which**  
27 **designates Town Square Park as a "Community Use: Town Center Park" (Appendix B, Page**  
28 **7). The management intent is to have Town Square remain as a desirable place for the**  
29 **community to gather and to participate in special events and also as a place for active and/or**  
30 **passive use the majority of the time. The programs and use areas in the park should continue**  
31 **to serve all members of the community.**

32 **The Downtown Plan recommends consideration of improvements to Town Square Park that**  
33 **can support and enhance these functions. The Downtown Plan also recommends that an**  
34 **overall parks and open space plan be developed for Downtown. That process will identify**  
35 **long term future open space needs and enhancements in Downtown. Any proposed**  
36 **improvements or changes to the design of Town Square Park beyond the repair or**  
37 **replacement of existing elements will undergo a separate site-specific park master plan**  
38 **process that includes the public's involvement as well as approval by the Parks and**  
39 **Recreation Commission and Planning and Zoning Commission.**

40 11. Pursuant to the *Issue #22* recommendations on page 53 of Attachment A, add the  
41 following references to existing height limitations to the draft Plan:
