

CHESTER CREEK SINGLE TRACK TRAIL

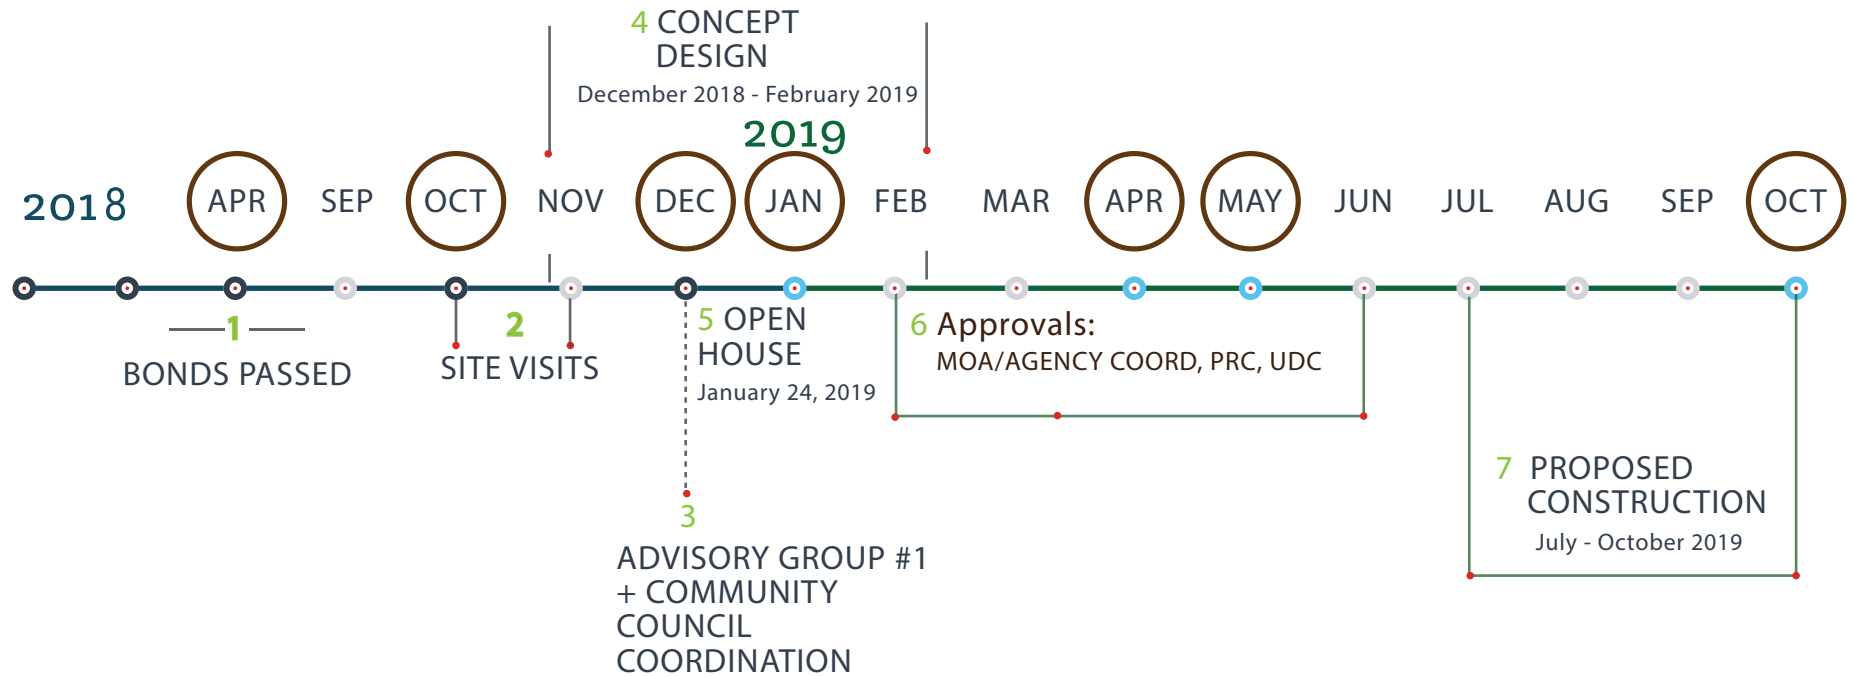

The MOA Parks and Recreation Department is exploring options for an urban single track trail for mountain biking along sections of the existing Chester Creek Trail, from Valley of the Moon Park to Goose Lake Park. The map below shows the existing Chester Creek Trail corridor under consideration.

PROJECT BACKGROUND:

In 2016, local bike advocates initiated this project with a proposal to use existing social trails to develop an urban singletrack mountain bike trail along the Chester Creek greenbelt corridor. Support for the concept was generated from neighboring North Star and Fairview Community Councils, and the Park and Recreation Commission. In April 2018, Anchorage voters approved a \$150,000 Municipal Park Bond for the project planning, design and implementation.
