VISION, GOALS, AND ACTIONS

This strategic plan applies a multi-faceted outreach approach to construct a holistic picture of the future of the Fairview Recreation Center.

The Plan was developed by working closely with staff from the Fairview Recreation Center and residents of the Fairview community. A phasing plan provides a roadmap for staff to carry out actions recommended by the plan. The Plan also provides planning and development staff and administrators a guide to investing in the facility as funds become available.

- Goal One (Modern Facility) and Goal Two (Fostering Community) focus more on small and large capital improvements,
- Goal Three (Sustainable Partnerships) and Goal Four (Long-term Programming) make recommendations about partnership building and programs.
- Phasing provides structure and adaptability with available funding.
