

2025 - 2026

Municipality of Anchorage

SAFE ROUTES TO SCHOOL MANUAL

FOREWORD

The **2025-2026 Safe Routes To Schools Manual** provides routing information for students traveling to and from school. The manual includes information that will assist students who walk to school. Students should always cross streets at designated locations such as over/underpasses, signalized intersections, all-way stops, school zones and crossing guard locations. A key map is provided to assist with the interpretation of the walking route maps. Please take a few moments to review the key map with your child. The map details safe walking tips for your child if he or she walks to school, such as instructions on the proper way to cross at signalized intersections.

The Municipal Traffic Department reviews each school zone every summer to ensure all signs, crosswalks and markings are in good condition and in place for the upcoming school year. However, field conditions can occasionally change due to construction projects or road maintenance. For these reasons, parents should monitor the walking routes and assist their child in making proper decisions when selecting the safest route to school.

If any discrepancies are noted when reviewing the school maps, please contact the Municipal Traffic Department at 907-343-8406.

Anchorage School District

2025-26 School Year Calendar*

In order to maximize student involvement in school activities and to accommodate the needs of students and families, no after-school activity shall be scheduled or hosted by the District on the dates highlighted in green. Activities include but are not limited to: sports team competitions, school open houses, academic competitions, dances, student performances, retreats and student government conferences. This prohibition does not include regular practices or regular club meetings.

HOW TO USE THIS MAP:

I. WALKING ROUTES

A. With your child, follow the arrows on the map and select the best route from your home to the school. Mark the route with a pencil or crayon.

1. Where no arrows are shown, all routes are considered equally safe.

2. Whenever you come to a double arrow in the roadway, your child should follow that route, as the safest available route.

3. If you come to a double arrow alongside the roadway, your child should use that path or stay on that side of the street until they reach a safer crossing.

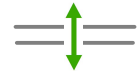

“Walk on Left Facing Traffic.”

“Walk on This Side Only”

“Cross Here”

B. Whenever this symbol  has been used, your child **should NOT cross the street!** The traffic conditions there are considered significantly less safe. They should cross these streets only at locations marked by the symbol shown at right.

C. Teach your child to follow the safest route, and to cross only at safer crossings shown on the map. You and your child should become familiar with the route by walking it together. Observe marked crosswalks, stop signs, traffic signals, and other traffic controls. Crossing points have been located wherever possible and should be used, even though a longer walk may sometimes be necessary.

II. WALKING SAFETY

A. When there are no sidewalks, teach your child to follow safe pedestrian practices by **walking to the left side of the street, facing any oncoming traffic.**

B. Teach your child to stop at the edge of the street, **look to the right, left, and behind** before and while crossing an intersection (pedestrians may be hit by turning cars as well as normal through traffic).

C. In secluded or remote areas children are safer walking in groups of three or more. Remember, there is **safety in numbers.**

III. SCHOOL BUS STOPS

Teach your child to follow safe walking practices to get to the bus stop. Changes in bus stop locations may possibly occur as neighborhood populations change. If so, you will be notified by the driver or your principal.

PEDESTRIAN SIGNALS

STEADY

You may begin to walk with caution in the direction of this signal.

FLASHING

If you are crossing the road when this signal appears you may continue to cross at a normal pace to the nearest curb or safety island. If you have not yet started to cross do NOT enter the roadway.

STEADY

Do NOT enter the roadway in the direction of this signal.
