(Sorted by Community Council - Recently added 2025 studied streets in bold)

\*Rank scoring weighs vehicle speed analysis, volumes, school zones, land use, equity, existing non-motorized facilities, street lighting, and vehicle crash history.

### Culled Streets List

Streets that had recent speed studies with results that did not meet program criteria for assistance funding.  
Study results are valid for 3 years and streets are not eligible for new study requests within that time, unless special traffic related circumstances.
