

Fairview Enhancement Options

The intent of this project is to better connect the Fairview community. This project asks the question: “If Route 11 were to go somewhere else, where should it go?”

Option 1: Connecting Fairview and the Senior Activity Center to the Alaska Regional Hospital.

Option 2: Connecting Fairview and the Senior Activity Center to the UMED district and the Alaska Native Medical Center.

Option 3: Connecting Fairview and the Senior Activity Center to the UMED district, across 36th Avenue, the Loussac Library, St. Elias Specialty Hospital, and ending at the Anchorage Neighborhood Health Center.
