

Northeast Anchorage realignments

The main intent of this scenario is to provide more service to North Muldoon, and the VA Clinic, while evening out the trip runtimes of these two routes for operators. *(This would add a transfer to current riders of Route 25 that ride beyond the Muldoon Transit Hub North, while eliminating that transfer from Route 30 riders.)*

Route 25: Could travel from Downtown and now end at the Muldoon Transit Hub.

Route 30: Could extend from the Muldoon Transit Hub north on Muldoon Road all the way to the VA Clinic. This extends more service to North Muldoon and allows for less transfers to the VA Clinic along with Tikahtnu Commons.

Route 51: Would not change and still provide service from the Muldoon Transit hub to Centennial Village.
