

New Route - Downtown Circulator

Project U, from TOTM 2020 was ranked 28th among all projects. Keeping this route in the 2025 update will help the department know if this is still a priority of the public and where it falls within that scope, according to all other projects that will be prioritized. It is also listed in the “Our Downtown District Plan 2021” that was published in April 2023.

Downtown Circulator: This route would service Downtown Anchorage along 6th Avenue, Cordova St., 3rd Avenue and L Street.
