

# **TRANSIT ON THE MOVE**

# ***West Anchorage Route Realignments***

The intent of this realignment is to make things more functional and useful to different areas of West Anchorage, in addition to renaming Routes 65 and 85 to be more geographically accurate.

**Route 40** would not change in its Loop Route service through the Spenard corridor.

**Route 65** would be realigned to include Wisconsin and Northern Lights / Benson that Route 85 would no longer serve. This would allow for a renaming convention to make Route 65 become the true “West Anchorage” Route.

**Route 85** would remove Spenard, Wisconsin & Northern Lights / Benson, quickening the trip times in this section of town. This adds service on Minnesota Drive between Spenard Road and Benson Boulevard. *\*There is one alternative to this realignment that could also add service in South Anchorage to the 100<sup>th</sup> Avenue shopping / employment area.*
