

Municipality of Anchorage Public Transportation Department Adopt-A-Stop Application

People Mover launched its Adopt-A-Stop program in 1998 seeking volunteers and groups to adopt a bus stop or stops.

Anyone can adopt a bus stop or stops; individuals, groups, private companies, public agencies, churches, schools, school groups, adjacent property owners, and more. Bus stop adoption is simple and when everyone joins this environmentally conscious program, the community becomes a better place to live and work. With more than 600 bus stops, your effort will help demonstrate your pride in Anchorage.

Adopters pledge to keep their adopted stop(s) clean and perform the duties (listed on our web site) for a commitment of one year. Bus stops adopters will receive a certificate of adoption and recognition of their efforts on the People Mover website. Department staff will coordinate distribution of the materials needed to keep stops clean and litter-free. We will contact you annually to ensure your continued interest.
