

ANCHORAGE ROADMAP TO RECOVERY

January 28, 2021

The purpose of this roadmap is to provide the public with a sense of what public health restrictions may be implemented at varying COVID-19 risk levels. The following guidelines are based on current public health information and may be modified based on updated information or unforeseen developments in the pandemic. The Anchorage Health Department will continually assess the community risk level. Reductions in risk level should be sustained over multiple weeks to trigger reductions in restrictions.

Arrow indicates current risk level as of January 28, 2021.
