The general obligation bond proceeds will be used to pay costs of planning, design, site preparation, constructing, renovating, installing, acquiring and equipping educational capital improvement projects including, but not limited to, renewals, replacements, and renovations of electrical and mechanical systems, building systems, and sites, undertaking design projects, and performing upgrades at career and technical facilities at thirteen schools. Shall Anchorage borrow up to $59,977,000 through the issuance of general obligation bonds to pay for educational capital improvements, career and technical facility education upgrades, educational facility building life extension and design projects within Anchorage, as provided in Ordinance No. AO 2011-119(S). The Projects currently qualify for a State grant of $21,000,000 based on $9,132,000 of the issuance, which is not eligible for State debt reimbursement. In addition, the Projects qualify for 70% State debt reimbursement on $31,205,000 of the issuance and 60% State debt reimbursement on $18,240,000 of the issuance, and no State debt reimbursement on $500,000 of the issuance (subject to annual Legislative appropriation as described below).

The general obligation bond proceeds will be used to pay costs or planning, design, site preparation, constructing, renovating, acquiring and equipping educational capital improvement projects including, but not limited to, renewals, replacements, and renovations of electrical and mechanical systems, building systems, and sites, undertaking design projects, and performing upgrades at career and technical facilities at thirteen schools. The Projects currently qualify for a State grant of $21,000,000 based on $9,132,000 of the issuance, which is not eligible for State debt reimbursement. If the State chooses to make full reimbursement on the eligible $49,445,000, the annual increase in taxes would be $6.53 to retire the proposed bonds (based on $100,000 of 2012 real and personal property value). State reimbursement is subject to annual Legislative appropriation.

Without State reimbursement for debt service, voter approval of this bond proposition authorizes for each $100,000 of assessed real and personal property value (based on the estimated 2012 assessed valuation) an annual increase in taxes of approximately $14.67 to retire the proposed bonds.

The debt will be paid from real and personal property taxes levied and collected area-wide in Anchorage. Anchorage will also pledge its full faith and credit for payment of the debt.
