Currently we are in Hunker Down until May 5th. The Emergency Orders have *NOT* changed with the release of the Safe Anchorage plan.

**Key Components of Safe Anchorage**

*Key components are in every phase of the plan*

**Allowable Activities**
- What is allowed

**Protective Measure**
- How to keep activities safe

**Risk Metrics**
- When activities will be allowed
RISK METRICS - APPLY TO ALL PHASES

1. Risk Metrics
   - Capacity to Screen and Test;
   - Cases on a downward trend; AND
   - Hospitalization on a downward trend.

PLUS

2. Health Care Capacity
   - Available beds to meet anticipated case surge; AND
   - Sufficient PPE for healthcare workers and first responders.

PLUS

3. Public Health Capacity
   - All + cases interviewed and contacts monitored;
   - Symptomatic contacts tested in 24 hours; AND
   - All suspected cases quarantined, and all + cases are isolated while infectious.
HOW DO WE MOVE TO THE NEXT PHASE?

**ALL** of the risk metrics described above must be met for 14 days.

3 KEY WAYS TO DO YOUR PART

- **FOLLOW STRICT PHYSICAL DISTANCING;**

- **FREQUENT CLEANING AND HAND WASHING;** AND

- **FOLLOW PROTECTIVE MEASURES**
