

**Anchorage Assembly Work Session November 4, 2021:
Boards and Commissions Nominations as of October 27
Background Information**

Questions sent to the Administration on October 26:

1. What outreach and advertising was done to recruit the new appointees? Was the outreach done in a way that ensures broad community representation on the Boards and Commissions (several have specific requirements to meet geographic and demographic diversity)?
2. There are 29 people whose terms expired in October 2021 who were not reappointed. How many of those submitted applications or indicated to their board/commission that they intended to serve out a new term? Can the Assembly have access to these applications? Were all existing members adequately informed that they would need to reapply for their positions (the past practice was to reappoint without a new application)?
3. Several Boards and Commission have very specific requirements outlined in municipal code for who fills each seat, and sometimes technical requirements for appointees. Do the new appointments maintain these requirements?
4. There were 23 people who expired prior to 2021, but according to OnBoard, that person was still serving (perhaps unaware that they had expired). Some of these were reappointed, but some were listed on the Administration's appointment documents as Vacant and new appointees were put forward.
 - a. Of those, how many were still actively participating in 2021?
 - b. How many reapplied for their seats?
 - c. How did the Administration determine which Members to reappoint and which ones to replace?
5. The staggering is off for the Election Commission. Would the Administration be willing to readjust the new appointment for Seat 4 for one year to expire in 2022, to bring the Commission back into alignment with the code to have staggered terms?
6. Jocasta Olp was appointed to the Health and Human Services Commission on 3/23/21 (see AM 183-2021), but does not appear in OnBoard. Can we assume that she is filling Seat #6?
