

There has been no need for ASP/ASC to turn anyone away due to space capacity; they have followed AFD's Dr. Levy's standing orders to follow protocols and not intake COVID+ clients, instead of calling AFD, which then takes those individuals to EDs.

### Sept

- 1,650 calls responded to with 809 intakes for 401 unduplicated clients
  - AHD is currently working with ASP to understand why there were about an even amount of calls but far fewer intakes and unduplicated clients
- **1,619 calls responded to with 1,262 intakes for 525 unduplicated clients (2019)**

### Aug

- 1,932 calls responded to with 929 intakes for 421 unduplicated clients
- **1,744 calls responded to with 940 intakes for 495 unduplicated clients (2019)**

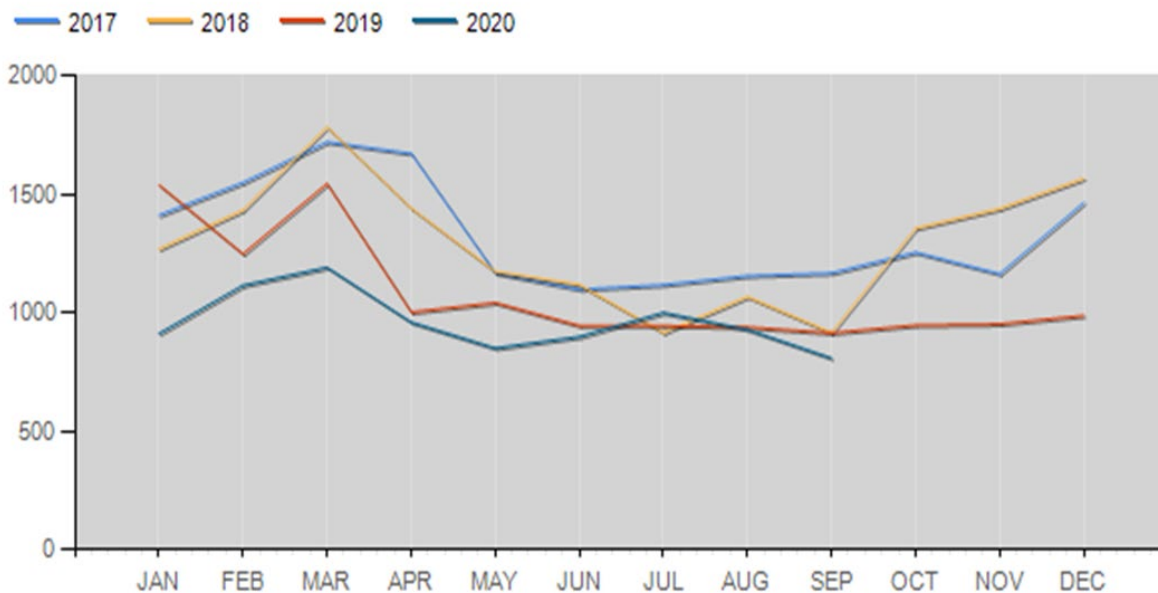

### July

- 2,279 calls responded to with 1,000 intakes for 460 unduplicated clients
  - Calls are up by about 100 from June 2020 and are the highest they have been since 2017
- **1,879 calls responded to with 945 intakes for 466 unduplicated clients (2019)**

### Vans

- Have 5; mechanical issues with 3; 2 deployed over the last few weeks
  - 1 back in May; 2 others more recently
  - Motors/replacement vans are on order
- It is reported (today) that there has not been a noted decrease in their ability to pick up clients

## Seasonal Use - Intakes Per Month
