

# Municipality of Anchorage

---

---

## Policy W.01

### Water Well Sampling Requirements

Reference: Anchorage Municipal Code, Sections 15.55.055G and 15.55.060K

Water well testing for "other bacteria" is no longer required by the State of Alaska. Testing requirements for the Municipality of Anchorage are hereby revised to be in accordance with the State and shall include coliform bacteria, nitrate and arsenic.

A handwritten signature in black ink, appearing to read "Ron Thompson".
